

Data Validation Assistant (Summer)

 *Based - Remotely*

 *Summer with the option of additional ad hoc hours*

Please note: This role is open to UK-based applicants only. Visa sponsorship is not available.

Company Overview

About Us

At Peacock Technology Ltd., we're reimagining dairy farming through smart, image-based technology. Our systems capture real-time images and use advanced tools to help farmers make more informed, confident decisions.

As we continue to grow, we're excited to welcome passionate individuals who want to contribute meaningfully and be part of a collaborative, forward-thinking team. By combining AI-driven insights with visual data, we transform images into practical actionable strategies that support efficiency, sustainability, and animal welfare. Innovation is at the heart of everything we do, we're shaping a future where technology and thoughtful decision-making work together to create thriving, productive farms.

Summary

We're looking for a **detail-oriented and motivated student** to join our team this summer as a **Data Validation Assistant**. This temporary role is perfect for someone who values accuracy, and is excited to contribute to meaningful technology in agriculture.

You'll be supporting our product development team by validating images from our vision systems, helping ensure that what we build is both reliable and impactful.

What You'll Do

- Review and validate images captured by our vision systems, following comprehensive training.
 - Provide clear, consistent feedback to help refine our AI models and product development.
 - Maintain strict data confidentiality and handle all data with care.
 - Work independently to meet project deadlines, with team support as needed
-

Who You Are

- A current student in a relevant field (e.g. Computer Science, Data Science, Information Technology, or Agriculture with an interest in technology).
 - You have a strong eye for detail and enjoy working methodically.
 - Comfortable using digital tools and open to learning new systems.
 - A team player with good communication skills.
 - Able to manage your time well and meet deadlines.
-

What We Offer

- A welcoming, inclusive team that values your contributions.
 - Flexible working hours and remote work options.
 - Hands-on experience with real data and product development processes.
 - Support and guidance throughout your placement.
-

How to Apply

If this sounds like the right fit for you, we'd love to hear from you. Please send a brief cover letter and your CV to **info@peacocktechnology.com** outlining your interest and any relevant experience.
