

General Farm Workers South West Scotland.

?General Farm Workers - South West Scotland

We are currently looking for individuals to come and join our team on a busy, progressive beef farm in beautiful Southwest Scotland.

We have various operations on the go, which include a calf rearing unit, a large suckler herd, finishing operation and a share in a neighbouring gas to grid AD plant - all keep the job interesting and offer lots of opportunities!

We have a large, mixed workforce from stockpersons to tractor persons so it's a good chance to work and get to know others too.

A fully furnished 2 bedroom cottage is available - with GCH & log burner.

Must have a UK driving licence and the right to work in the UK.

Good opportunity to earn good money & have a good time in beautiful rural setting, in a great community.

Please call Richard on 07970595529 for more information.
