About the team

SAC Consulting is one of the leading agricultural consultancies in the UK, uniquely placed to support the sustainable growth and prosperity of agriculture and land-based businesses; working across food supply chains as they rise to the challenges of climate change, biodiversity loss and food security.

We believe in the power of local support, which is why our 200-strong team of consultants, technicians and specialist support staff are based in 25 offices across Scotland, providing local knowledge and farming expertise to 8,500 farmers and crofters.

We provide an unrivalled level of consultancy service to farmers, crofters and the wider rural sector throughout Scotland.

About the job

SAC Consulting is seeking a Senior Project Manager to provide operational leadership for the planning, governance and delivery of major programmes and projects. You will lead a geographically dispersed, multi-disciplinary team and ensure work is delivered to a high standard, on time and within budget, while meeting demanding requirements for reporting, evaluation and accountability.

You will be responsible for setting clear delivery plans, managing resources, monitoring progress, and maintaining robust risk and issue management. Acting as a key point of contact for senior stakeholders, you will build effective relationships, manage expectations, and ensure communication is accurate, timely and professional. A strong focus will be placed on governance and quality assurance, with reliable delivery evidence and well-maintained records.

The role also includes oversight of programme management systems and data processes, supporting effective reporting and continuous improvement. You will help develop consistent ways of working, improve efficiency, and strengthen team capability through coaching, support and clear performance expectations.

You will bring significant experience in project and programme delivery, strong stakeholder management skills, and the ability to lead people through competing priorities and operational challenges. Regular travel across Scotland will be required.
